Gain the real-world skills to succeed in your future career.

Netflix — the world's leading streaming entertainment service — has partnered with 2U, Inc., and a specially selected group of **Historically Black College and Universities (HBCUs) and Hispanic Serving Institutions (HSIs)** to offer cutting-edge, part-time programs that teach in-demand skills to help eligible participants stand out in today's market.

Netflix sponsorship allows accepted students to participate at no cost.

Foundations Boot Camps

Now enrolling for Spring 2022

Designed for those without prior experience, these boot camps introduce students to Java, data science, or UX/UI design through hands-on learning. By the end of the foundations course, students will be prepared for the advanced course. Students who successfully complete this course will have the opportunity to progress into the advanced course the following semester. This program is a two semester commitment.

UX/UI Design Foundations Boot Camp ›

Advanced Boot Camps

Upcoming for Fall 2022

The advanced boot camps take students deep into the applied practice of complex topics across Java, data science, or UX/UI design. To apply to the advanced course, students must meet specific major, degree, or coursework prerequisites, or have successfully completed the foundations boot camp. Please visit the individual course pages for additional program information and eligibility requirements.

Advanced Data Science Boot Camp ›

Advanced UX/UI (Coming Soon)

A unique, life-changing learning experience.

Build essential skills for the future of tech with exclusive courses designed for currently enrolled students or alumni of our partner universities.

Gain market-driven skills in 16 weeks.

Dive into the foundational or advanced skills for Java programming, data science, or UX/UI design through pioneering curricula.

Build your professional portfolio.

You'll receive real-world training directly applicable to the industry while creating portfolio projects that demonstrate your knowledge.

Set yourself up for future success.

Take your personal and professional development to the next level with 1:1 mentorship with seasoned Netflix professionals.

Amplify your professional network.

Prepare for your next steps with invaluable networking opportunities and a wide range of career services.

The Netflix Pathways Boot Camps are offered through Netflix, powered by 2U, Inc., in partnership with the following universities: Talladega College, St. Edward's University, Norfolk State University, Marymount University, and Edward Waters College.
