LifeLock Identity Theft Protection

*see details below

PROMO CODE: ODWEB

Protect Now

Known as "tax-related identity theft", criminals can use your name and Social Security number to file false tax returns in order to get your refund. In order to avoid detection, they do it early in the tax season before the victim has a chance to file their own return. Many don't become aware of the crime until they are told by the IRS that a refund has already been issued. Recovering your identity after this type of theft can be difficult and lengthy.

To give yourself an added layer of protection during this tax season, you should consider becoming a LifeLock member. LifeLock helps fix tax identity fraud problems. From the moment you enroll, we'll be your eyes and ears. Monitoring your credit, detecting suspicious activity, sending alerts¹ and helping restore your identity if it's stolen. You'll rest easier knowing you have the best identity theft protection backed by our million dollar guarantee.¹
